REVENUE DEPARTMENT.

Circular No. 6703-10, dated 21—28th December 1907.

The following extracts from Comptroller's letter No. 3194—416, dated 13th December 1907, are published for the information of the Deputy Commissioners and Taluk Treasury Officers for information and guidance.

The Nagadi gumastas and Savings Bank clerks should study the rules carefully and see that the irregularities noticed hereunder are not allowed to occur.

* * * *

I. The rules printed and published and the instructions issued by this office from time to time should, if strictly followed, have enabled the Treasuries to carry on the work of these Banks efficiently. But I regret to report that the rules and instructions are often neglected and the result is that there are omissions and irregularities, the more important of which are given below :—

(1) The interest due is not correctly calculated and it therefore very often happens that when an account is closed, more than what is due is paid to the party. This results in debit balances which remain unadjusted for months and years together.

(2) When accounts are transferred from one Treasury to another, the amounts so transferred in some cases include the interest up to the date of such transfers, contrary to para 40 (*a*) of the Savings Bank Rules.

(3) Payments are often made to the heirs of the deceased depositors without the production of the required heirship certificates. When these payments are made at Taluk Treasuries, the certificates received do not bear the counter-signature of the District Treasury Officers.

(3)*a*. Instances also are not wanting in which part payments are made to the heirs of the deceased depositors instead of paying at once the full amount at credit and the deceased depositors' accounts kept open instead of being finally closed.

(4) Names entered in the monthly journals sent to this office are found often to vary with those of the ledgers, thus showing that the posting of the ledgers is not done simultaneously with the journals as it should be.

(5) The revised annual and aggregate limits are not properly watched, though special instructions were issued by this office. Very often sums in excess of these limits are accepted and such amounts are not repaid to the parties at once.

Official Memorandum No. 6713-20, dated 24—28th December 1907.

Government having in their Proceedings No. R. 3737—L. OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Dated Bangalore, the 23rd December 1907.

A. RANGASWAMI IYENGAR,
Rev. Comr. & Dir. of Statistics in Mysore.

No. R. 3812—Agri., dated 18th December 1907.

The accompanying text of leaflet No. 8 of 1907, on "Ensilage for fodder in India" issued by the Bengal Department of Agriculture, is republished for general information.

"Ensilage is the name given to the process of preserving green fodder; a silo is the place in which the process is carried out; silage is the preserved fodder. It is observed that when a crop is cut green and heaped together, chemical changes take place in the plant-tissue and heat is developed. These changes can be summed up in the one word "fermentation." In the fermentation that goes on, the starch, etc., in the cells of the plant give rise to sugars, alcohols, and ultimately volatile organic acids. The sugars impart a sweet taste to the silage, the alcohols a sweet aroma, and the acids a sour taste and smell. Now the fermentation which gives rise only to sugars and alcohols produces sweet silage, while that which goes further, giving rise to much acid produces sour silage. This fermentation can be regulated by controlling the amount of air in the interstices of the mass of fodder. If a green crop be cut at such a time when it is nearly mature and contains about 75 per cent of water, and then stacked in a silo, small quantities being spread out uniformly over the surface and trampled down, the entire mass is consolidated and fermentation starts. But owing to the fact that the mass is so consolidated, there is little air in the interstices, the changes are slow and the temperature does not rise very high or rapidly. If kept below 120°F., acids will be freely formed, and the silage will be "sour." If, on the other hand, the crop be cut and left out in the air to dry a little and then put in the silo, the fermentation will be more rapid, especially if the mass be not so much trampled and consolidated. The result of this is that a high temperature will rapidly be attained, and the cells of the plant-tissue will die.

If when the temperature is about 140°F., the mass is thoroughly pressed, the air will be driven out more or less and the fermentation will be checked and a sweet silage containing sugars and alcohols will be formed. It will not be acid or sour. It is important to watch the temperature, as, if it gets too high, the mass may become charred or burnt, with the result that much of the nutritive constituents will have peen dissipated. Although special temperatures have been mentioned above, in actual practice, experience and not a thermometer will serve as a guide in the process of making silage.

Sour silage is of a light green colour with sour taste and smell. Sweet silage is of a dark brown colour with a pleasant aroma and a sweet taste. Probably the most useful silage is neither sweet nor sour, and is produced when the temperature ranges from 110°F. to 130°F. In silos the lower and more consolidated part of the mass will approximate to the sour, while the upper and the less consolidated will be sweet silage, unless precautions are taken to get a uniform product. If the crop to be made into silage be chaffed to one inch lengths previously, it will help to make the mass more uniform, air will be more easily excluded, because the material will pack tighter, and it will be prevent the outer portions round the sides of the silo becoming mouldy. It will also save the stock some trouble in mastication. The conversion of green fodder into silage is accompanied by some of the indigestible substances becoming digestible.

Simple Silos.

Silage supplies succulent food at a time when succulent crops are not obtainable. Therefore, if a person can make silage for use in such times, his beasts are at an advantage.

(1) A very inexpensive form of silo is the "stack silo" This is made by selecting a dry sheltered spot, not exposed to the prevailing wind. Next the foundation must be well drained so that no water can soak into the place. If a wooden floor can be arranged, so much the better. The fodder is packed on this foundation in the form of a stack; square, oblong or circular stacks may be made. The fodder is pressed down in stacking as much as possible and a uniformly level surface is maintained. As the stack reaches a certain height, it will be found difficult to prevent the sides slipping off. This slipping can be prevented by driving upright poles in the ground around the stack. The fodder should be put on in such quantities as prevent the temperature of the lower bulk becoming too high. If a thermometer is available, a few pieces of wood can be left in the centre in an upright position, so that a hole remains open down the centre, into which the thermometer can be lowered and the temperature taken. Finally, heap up the crown so as to run off any rain water, and press down tightly, and water. If any heavy planks or stones are available, place these on the top.

(2) Another inexpensive form of silo is made by selecting a dry place and digging a hole of sufficient size to contain the required amount of silage. Around the top of this silo, to prevent the earth falling in, etc., place slabs of stone or any other suitable material, and as it were, build up a wall for a foot or two. Around the outside of this "wall" put quantities of mud and earth, thus reducing to a minimum the passage of air and water, from the outside through it. Fill the silo, press down tightly by tramping and water the surface to finish it off and prevent the upper part becoming too hot. The walls of the silo should be as upright and smooth as possible. The structure around the top will serve to keep out flood-water. The silo may either be protected from rain by a tent-roof, or else the silage may be heaped up above ground level, sloping into two directions from the middle, and then covered to a depth of about

six inches with soil, so that if rain falls, it will run off and not ink into the pit. Silage when opened becomes mouldly and bad for food after several hours, t erefore it must be fed to stock at once. The silage should be taken out of the silo in layers so hat none of it thus exposed to the air has time to go mouldly before being used.

Maize and Juwar.

These are good all-round crops, both bulky and nutritious but there are many others, *e.g.*, barley, oats, rye, beans, peas, vetches, grasses, etc. Maize should be cut for silage when nearing maturity. The yield of dry matter is then greater and the percentage of water is less; and the silage produced is sweeter. It is best to cut it when the grains in the heads are "glazed." A good maize crop yields at least 12 tons to silage per acre Juwar yields a more acid and less digestible silage than maize, but still it is quite good It is best cut when maturity has been attained and the seeds formed, but before they show any signs of ripening. Young juwar should not be employed, as cases of poisoning have been traced to the use of this plant when young."

along the south-western borders of Survey Nos. 84 and 83 and joins the Hassan-Periyapatna-Cannanore road; then going along the road for some distance, turns westward, passing along the southern border of Survey Nos. 505, 504, 497, 493, 491, 466, 465 and 458 of the Hassan Kasaba; the line stops at the north-east corner of Survey No. 458.

ALL INDIA COMPETITION OF HAND-LOOMS.

The accompanying prospectus of the "All-India Competition of Hand-looms" to be held in Madras in February 1908, is published for general information :—

"All-India Competition of Hand-looms."

It is a well-known fact that next to agriculture, the most important industry in this country, is Hand-loom weaving. Various improvements in the existing looms have been suggested from time to time and improved fly-shuttle looms have been introduced; but as yet, the ordinary weavers have not evinced any great desire to adopt them. This is not to be wondered at, seeing that no systematic attempts have hitherto been made to demonstrate, by practical trials, extending over a sufficiently long period, the comparative merits of the fly-shuttle and the ordinary looms and the best methods of weaving. With a view to carry out such a trial, the Managing Committee of the National Fund and Industrial Association, Madras, have resolved to hold a weaving competition of Indian made hand-looms and also of such improved hand-looms as have recently been introduced into this country, the competition being continued for six days, during which the same workmen will be required to work for seven hours a day from 8 A.M. to 5-30 P.M., with an interval of an hour after 10 A.M. and of an hour and a half after 1 P.M.

The Government of Madras has been pleased to sanction a liberal contribution of Rs, 2,500 towards this undertaking, on condition that the National Fund and Industrial Association provides not less than one thousand rupees and undertakes to carry out the necessary arrangements. This the Association has readily agreed to do and the Competition will be held during the last week of February 1908.

The following is the programme of the Competition :—

Weaving Competitions.

A Weaving Competition will be held in Madras on the premises of the Madras School of Arts in February 1908, when the following prizes will be offered for hand-looms working under the conditions specified :—

1. The tests will commence on Monday the 24th of February at 8 A.M., and will be continued till Saturday evening at 5-30 P.M. The weavers will be required to work for seven hours each day, commencing work at 8 A.M., and with intervals of rest from 10 A.M. to 11 A.M., and from 1 P.M. to 2-30 P.M.

2. Intending competitors must make application for the sections and classes they wish to enter for on the form provided for the purpose, which will be supplied on application to the Hony. Secretaries of the "All India Competition of Hand-looms," Mahajana Sabha Hall, Mount Road, Madras.

Such applications must reach them before the 15th January. Every competitor will be required to fix up his own loom and, as far as possible, indigenous hand-looms will be located in a shed with an earthen floor to facilitate the erection of the frame work that may be necessary.

3. Each competitor will provide his own warp, complying with the conditions of the competition, and will be allowed to fix it in the loom beforehand, and to weave a length not exceeding two yards before the competition commences. At the end of each interval of work the length woven during that interval will be marked off by a thin band of red. Competitors must supply their own pirns and have a sufficient supply for the competition.

4. Competitors should come provided with warps sufficiently long to keep their loom employed during the whole week.

5. In awarding the prizes the Judges will allow marks :—

(1) for the total length of cloth woven in the week;

(2) for the uniformity of length of out-turn day by day;

(3) for quality of weaving in which uniformity of picking and freedom from broken ends will be important factors;

(4) for nearness to exact compliance with the specification of the cloth to be woven.

Special Prize.

A special prize of Rs. 500 will be placed at the disposal of the Judges to be awarded to the best loom entered for any of the competitions, provided that such loom is well suited to the requirements of native hand weavers and is capable of doing satisfactory work on both fine and coarse counts. The Judges will be required to satisfy themselves that the initial cost of the loom is reasonable, that it is not likely to get out of order, that it can be easily repaired, that with but slight modifications it is capable of being worked on both fine and coarse counts, that it requires no uncommon dexterity to obtain good results from it, and generally that its adoption by the weaving community would enable them to largely increase their out-put.

Should there be two looms of practically equal merit and the Judges deem that the adoption of either of them is likely to materially improve the welfare of the weaving community, two special prizes will be provided. It must be clearly understood that these prizes will only be awarded to looms which possess points of novelty.

Section 1, Native Hand-looms.

Prizes of Rs. 100, Rs. 75 and Rs. 50 will be awarded to looms which do the best work in the following classes.

1. Looms to weave cloth one yard wide with 20s for warp and weft with 48 threads per inch and weft 48 picks;
2. Looms to weave cloth from 45" to 54" wide with 60s for warp and weft, with 72 threads for inch and 72 picks for weft;
3. Looms to weave cloth from 45" to 54" wide using for warp and weft 100s with 80 threads per inch and 80 picks for weft;
4. Looms to weave Madras handkerchiefs with 40s both warp and weft. Warp with 72 threads and 72 picks for weft; standard width 1 yard;
5. Looms to weave fine handkerchiefs with 60s in the warp and 40s in the weft. Warp to be 80 threads per inch and weft 108 picks; standard width 1 yard.

Section II.—Improved Hand-looms made in India.

Prizes of Rs. 100 and Rs. 75 and Rs. 50 will be awarded to looms which do best in the following competitions:—

1. Looms to weave cloth one yard wide with 20s;
2. Do from 45" to 54" wide with 60s;
3. Do do using for warp and weft 100s;
4. Looms to weave Madras handkerchiefs with 40s for both warp and weft;
5. Do fine handkerchiefs with 60s in the warp and 40s in the weft.

Section III.—(Warp and weft to be as in Section 1).

Imported hand-looms may be entered for any of the competitions under Section II but they will be judged separately and if any looms are deemed of sufficient merit to justify the encouragement of their use in India, gold and silver medals will be placed at the disposal of the Judges to be awarded to such.

Looms may be entered for any one or all of the classes of the competition, but only one medal will be awarded to each type of loom and the Judges will be instructed to make no awards unless, in their opinion, the looms can be confidently recommended for use among the weavers of India.

General.

Any number of looms of the same make may be entered for any competition not only one prize will be awarded in each competition to one particular make of loom. Special weavers' prizes of Rs. 25 each will be awarded to the weavers themselves. Three such prizes will be awarded in each competition by the Judges who will only take into account the skill and dexterity of the weaver independently of the merits of the loom.

Successful competitors in Sections 1 and 2 may, if they prefer it, receive gold or silver medals in lieu of money prizes.

Intending competitors should send their looms so as to reach the Secretaries (School of Arts) before the first February 1908.

The workmen should report themselves to the Secretaries at the School of Arts at least two days before the date of competition. The exhibitors will have to make their own arrangements, at their own cost to setting up their looms.

Competitors entering a number of looms will, as far as space permits, be allowed to make arrangements for winding pirns on the School of Arts premises.

The members may be classified as follows :—

Caste.		*Profession.*

5. *Capital.*—The amount collected up to the end of June 1907 was Rs. 1,758-8-0, of which Rs. 31-8-0 was for entrance fees. During the succeeding five months Rs. 952 and Rs. 13-2-0 were collected towards shares and entrance fees, respectively. A sum of Rs. 73-8-0 was withdrawn out of the share amount. The total balance at the end of November was Rs. 2,550-2-0.

6. *Deposits.*— On the 1st July last, the total amount of deposits was Rs. 175. The subsequent deposits amounted to Rs. 239-7-11 and the amount withdrawn was Rs. 372-9-0, leaving a balance of Rs. 41-14-11 at the end of November 1907. The deposits are derived mostly from easy deductions made from the profits or wages of the weaver-members of the Society who obtain yarn from the Society and sell the manufactured article to it. When these deductions total up to a fourth of a share allotted to a member, the deposit is appropriated towards the payment of the share amount. This is an excellent method of encouraging thrift on the part of the members and inducing an interest in them for the progress of the Society.

7. *Goods account.*—The total value of goods purchased during the five months from July last was Rs. 9,566-3-8 and the opening balance was Rs. 1,597-5-3 worth of goods. Assets.

„ goods and advances	2,779 12 10

The transactions referred chiefly to the buying of raw products such as, yarn, silk, etc., for weaving, giving the same to members as advance and buying from them the prepared goods. It is only a month ago that the Society began to give cash loans to members to the extent of 80 per cent of their paid up share capital.

9. *Establishment.*—The Society has one clerk on Rs. 5 per month.

10. *The Managing Committee Meetings.*—There were four meetings of the Committee held during the period.

11. *General remarks.*—The members of the Society mostly belong to the weaving community, the intelligent President Mr. Karadi Venkataramana Setty being himself a weaver by caste. The Society appears to be much appreciated by the class for whose benefit it is mainly intended. For want of sufficient capital, the Society's operations are somewhat circumscribed.

No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Departments. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, and other private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap, will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent, later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that, when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

General Regulations for Exhibitors in the British Indian Section of the Franco-British Exhibition, London, 1908.

1. *Applications for space in the Indian Section.*—Applications for space should be forwarded as soon as possible to the Secretary, Indian Committee, Franco-British Exhibition, India Office, London, S. W.

All applications will be considered in the order of their receipt, but owing to the limited amount of space at the disposal of the Indian Committee, they cannot undertake to allot the whole or any part of the space applied for, their object being to secure the best possible exhibits. In exceptional cases the Indian Committee may render special assistance to exhibitors of articles of Indian origin and manufacture whose circumstances do not admit of their meeting the ordinary charges.

2. *Date of reception of Exhibits.*—All exhibits accepted by the Committee or their authorized agents, must be delivered to the Indian Section between the 15th March and 15th April 1908. Exhibits for exhibition should therefore be despatched from India, at the latest by the 15th March 1908.

3. *Prohibition of transfer of space or substitution of Exhibits.*—No exhibitor will be permitted to transfer his allotment, or allow any other than his own duly accepted exhibits to be placed thereon. All goods must be exhibited in the name of the person or firm who signed the form of application.

4. *Forfeiture of allotted space.*—Space not occupied twenty-one days previous to the opening of the exhibition will be forfeited, and otherwise allotted at the discretion of the Indian Committee.

5. *Forwarding of Exhibits.*—Exhibitors may transmit their goods through the official agents to the Indian Committee, Messrs. H. S. King & Co., or any forwarding agent, or direct to the Exhibition. Each case or package should have at least two address labels securely fixed on contiguous sides. These labels should be clearly and legibly addressed to Mr. B. J. Rose, Indian Section, Franco-British Exhibition, 1908, Shepherd's Bush, London, W.

6. *Conveyance and Installation Expenses.*—Exhibitors must bear all expenses of conveying, delivering, arranging, installing, and removing their exhibits; and also the cost of erecting all fixtures, platforms, screens and counters. For the convenience of Indian exhibitors the Committee are willing to undertake the installing of exhibits on terms to be previously arranged.

7. *Supervision of arrival, installation, and departure of Exhibits.*—Unless other arrangements are made with the Indian Committee, exhibitors must personally, or by their accredited representatives, receive, unpack and instal their exhibits, and remove their cases within a period of four weeks after the close of the exhibition.

8. *Removal of Exhibits.*—No exhibit may be removed from the Indian Pavilion before the close of the exhibition without the special permission of the Indian Committee.

9. *Sale of Exhibits.*—Exhibits sent for sale can only be sold for delivery at the close of the Exhibition. The price asked for all goods forwarded for sale should be marked, if possible, on the article itself, as well as being shown in the invoice. The sale price must include a commission of 10 per cent., which will be retained by the Committee to cover the cost of the necessary sales staff, etc Clear and definite instructions must be inserted in the invoice as to whether the goods are to be returned, or sold to the best advantage in case the price demanded is not obtainable. In default of any such instructions, it will be assumed that the exhibits may be disposed of as may seem best to the Committee.

10. *Liability of Exhibitors.*—Every exhibitor shows at his own risk in every respect, and it is a condition that he holds the Indian Committee harmless, and indemnify it against any legal proceedings arising from any injury or accident caused by his machinery or other article exhibited by him or from any action which it may be necessary to take in enforcing compliance with the Regulations. The above rule applies to companies and firms as well as to individual exhibitors.

General Rules and Regulations of the Franco-British Exhibition, 1908.

In the following Rules and Regulations, the following terms shall have the following meanings, respectively: "Association," the Franco-British Exhibition Incorporated; "Exhibition," the Franco-British Exhibition, Shepherd's Bush, London, W; "Concessionaire," any person or partnership, or other body of persons, whether incorporated or not incorporated and whether domiciled in the United Kingdom or elsewhere, who or which has an agreement with the Association for a Concession, or has signed a copy of the Rules and Regulations of the Exhibition; "Concession," the exhibit, attraction, entertainment, or privilege of the Concessionaire as set forth in the contract with the Association; site or building, or portion thereof any space allotted to the Concessionaire for his Concession by the Association under contract between the said parties, and words denoting the singular number only shall include the plural number, and words denoting the masculine gender, the feminine gender and *vice versa*.

Opening and closing.

1. It is intended that the Exhibition shall be opened in or about May of 1908, from about 11 A.M. to about 11 P.M. daily, except Sundays, and remain open for a period of about twenty weeks, but the Association reserve the right to extend or reduce such period or hours and dates. Due notice will be given as to the opening and closing of the Exhibition.

Change of plans and rules.

2. The Association, whilst intending to adhere as closely as possible to their published plans and general rules, reserve the power to make any modifications or alterations they may desire, and no Concessionaire shall be released from any of his obligations, nor shall he be entitled to make any claims by reason thereof, nor on account of any alteration in the programme of the Association which may be found necessary or expedient.

Installation and removal.

3. Concessionaires agree to pay all expenses of conveying, delivering, arranging, fixing and removing everything connected with their Concession, and also the costs of erection of all buildings (if any), structures, partitions, fixtures, screens, decorations, etc., required; and they must personally, or by their representative, superintend the transmission, reception, unpacking, installation, and (at the close of the Exhibition or expiration of this agreement, whichever shall first happen) the removal of their goods at the expense of the Concessionaire and all articles connected with their Concession. The Association reserve to themselves the right of doing at the expense of the Concessionaire whatever they may consider necessary unless this Regulation is strictly complied with.

Underletting.

4. No Concessionaire shall assign, transfer or underlet or part with the possession of any site or building or portion thereof allotted to him, or dispose of any part or interest in the Concession, nor place thereon

any other than his own duly approved Concession, and the Concessionaire hereby declares that no other person other than the name or names appearing in any Contract with the Association is pecuniarily or otherwise interested with him; and he further agrees that he will not, after the signing of the above Contract, enter into partnership in respect of this Contract or his Concession without the written sanction of the Association, which consent the Association shall not be bound to concede. Any breach of this rule renders the Concessionaire liable to have such Contract forfeited, and he shall not be entitled to any compensation, nor the return of any monies whatever from the Association.

Refreshments.

5. No articles of alimentation, refreshment, food, drink or tobacco shall be either bought, sold, given away or consumed at, on or in any site, building or part thereof used for the Concession by any Concessionaire or his employees without the written permission of the Association, or unless it is expressly provided to the contrary in the Concessionaire's agreement with the Association.

No deception.

6. No deception of the public of any kind will be allowed. Anything which has not been clearly described, or which shall not be approved of by the Association, shall not be permissible for exhibition or display to the public; and the Association reserve the right to refuse the admission to, or to enforce the removal from, the Exhibition at any time of any article or object which they may deem unsuitable, dangerous, or in any way objectionable, without assigning any reason for so doing, and the Concessionaire hereby exonerates the Association from any claim whatsoever in reference to any article or object so refused or removed.

Distinctive Mark.

7. All cases and goods for the Exhibition must bear on two sides the distinctive mark /F/B/E/ together with the name of the Concessionaire and particulars of the Concession, as well as the name of the site or building which the same are intended for, and the title of the Exhibition in full.

Receipt of Goods.

8. No goods or objects of any kind will be received earlier than four weeks before the date for the opening of the Exhibition unless special permission in writing has been obtained from the Association. But all stands, show-cases, etc., must be completely erected in position at least two weeks before the date fixed for the opening of the Exhibition and all articles displayed therein or thereon at least one week before such date.

Removal of Empties.

9. All cases for exhibits not inside of buildings must be unpacked immediately after arrival, and the empty cases and litter removed forthwith by the Concessionaire from the site, building and exhibition grounds, otherwise the Association reserve the right of doing this at the expense of the Concessionaire.

Local and other requirements.

10. All structural or other works, and everything else supplied by the Concessionaire, must at all times be in accordance with the regulations and subject to the approval of the London County Council, and Local and all other authorities.

Alterations.

11. Any constructional work in connection with the Concession is at all times subject to the approval of the Association, and where the Concession is installed in any building no staple or other attachment shall be driven into the floor or wall, nor must the flooring, walls or roof be altered, removed or strengthened, except by the sanction in writing of the Association, and at the expense of the Concessionaire. The flooring of the Exhibition, Palaces, Halls, and Buildings is calculated to bear a weight of 1,000 lbs. to the square yard, and no Concession having a greater weight per yard super can be admitted until the special sanction in writing of the Association has been obtained, and whatever alteration to the flooring may be necessary must be made at the expense and risk of the Concessionaire, and all damage caused by such alterations must be made good by the Concessionaire.

Structures subject to Approval.

12. All constructions, fittings, decorations, designs, announcing boards, advertisements, flags and signs, etc, shall be new and subject in all respects to the approval of the Association, who may cause to be removed, or altered, anything they may deem objectionable. Concessionaires must not display advertisements or notices other than those referring to their own Concession.

Dimension of Stands.

12A. The construction and appearance of all stands and Concessions are at all times subject to the approval of the Association, and where show cases, decorations, counters, platforms, screens, signs, etc., are provided by the Concessionaire must conform to the special regulations of the respective sections. Concessionaires occupying stands with two or more frontages must arrange their display on each frontage, and any bare woodwork or back of signs, etc., must be covered or decorated. No Concessionaire shall display his goods or erect signs, or partitions in such a way as to project beyond the space allotted, or obstruct the light or impede the general view in all directions or be detrimental to any other Concession, but must confine his Concession strictly to the limits of the space allotted to him.

Official Contractor.

13. The Association may appoint an official Contractor or Contractors for buildings and erections of every kind, stands, fittings, decorations and signs, to attend the Exhibition to take orders. Under the provisions of Section 652, Civil Procedure Code, and in supersession of Rule of Practice No. 85, dated 26th February 1894, the Chief Court issues the following rules for regulating the procedure to be observed in the matter of the issue of warrants for the arrest of public servants and railway officials :—

1. Whenever a Civil Court issues a warrant for the arrest of a public servant, notice in writing of the intended arrest shall be sent by the Court issuing the warrant to the immediate official superior of the person to be arrested. The notice shall be delivered to the official superior, before the warrant is executed, by the amin or process peon to whom the warrant is entrusted for execution, unless it appears to the Court issuing the warrant that the delivery of the notice in this way is likely to delay the execution of the warrant unduly, in which case the notice shall be despatched to the official superior by post or by such other means as appear proper to the Court issuing the warrant before the warrant is handed over to the amin or peon.

2. When a Court has occasion to issue a warrant of arrest of any person in the employment of a Railway Company, the Court shall enter, in the warrant, a direction to the amin or process peon to whom it is entrusted for execution, requiring him, before making the arrest, to acquaint the immediate official superior of the person to be arrested with the fact that the arrest is about to be made. REVENUE DEPARTMENT.

Circular Memorandum No. 7469-76, dated 16—20th January 1908.

Subject:—

Fortnightly Prices Current of Food Grains (Wholesale and Retail).

Occasionally instances of glaring discrepancies in the quotation of the prices of some of the articles are noticed in the above returns received from the Deputy Commissioners of Districts, for example, in the Hassan District Return for the fortnight ending 15th November 1907 the price of hides was quoted at 20 seers per rupee and in that for 30th November 1907, the wholesale price of grass was found to have risen (fourfold) to Rs. 8 per cart against Rs. 2 in the previous fortnight while the retail price was 2 annas per head-load against one anna in the previous fortnight and the price of dry cocoanut was quoted at Rs. 2-8-0 per maund. The Deputy Commissioner was requested to state whether the 1st and the 3rd articles sell so cheap in his district and to explain the discrepancy in the second case.

2. The Deputy Commissioner in reply states that the kotval at Hassan was in the practice of quoting the price of hides at Rs. 2 each and that he did not know that it should be quoted by weight and that it is now ascertained from the Amildar that the article is sold at 10 seers per rupee; that by an oversight the price of grass was returned at Rs. 8 per cart instead of Rs. 3 and that the quotation of the price of dry cocoanut at Rs. 2-8-0 per maund was an error, the price being Rs. 7 per maund.

3. From the above it is observed that sufficient attention is not paid to this important return by the Taluk Officers and that little scrutiny is evinced in the District Offices. The Deputy Commissioners are therefore requested to bestow some attention on checking these periodical returns and warn the Amildars against similar mistakes in the future.

No. 7556-61, dated 16th—21st January 1908.

2. K. Vedanta Iyengar, B.A., Head clerk of the Deputy Commissioner's office, Kolar District, will be in charge of the Mulbagal Taluk during the absence of Mr. M. S. Puttanna on leave, or until further orders.

PART III.

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. 278—L. C. 6-07, dated 21st January 1908.

Under Rule 40 of the rules for the conduct of business of the Mysore Legislative Council, the accompanying report of the Select Committee appointed for the consideration of the Police Bill and the Bill as amended by them, are published for general information.

By Order,
K. MYLAR RAO,
Secy., Mysore Legislative Council.

Report of the Select Committee appointed for the consideration of the Police Bill.

We, the members of the Select Committee appointed for the consideration of the Police Bill, beg to submit the following report thereon. Owing to several causes, the Committee was unable to sit earlier, and had consequently to get the period for the submission of the report extended by about two months. We have now carefully considered the several provisions of the Bill in detail and also the several representations that were received. The principal amendments proposed and the reasons therefor are noted below.

Clause 3, Sub-clause (i), (i).—We are of opinion that the expression "subject to the provisions of the Village Offices Regulation," should be inserted between the words "provide" and "for" occurring herein, so as to subject the entertainment, appointment, etc., of the officers mentioned, to the provisions of the said regulation and not to interfere therewith.

In this connection we would recommend that printed books with counterfoils and pages consecutively numbered should be supplied to the patels for communicating their first information reports to the Police, one copy being retained by the patels and the other sent to the Station House Officer.

Clause 4—Definitions.—The word "vehicle" has been added in the definition of 'common gaming house,' so as to remove all doubts as to whether vehicles come under the definition or not; and meet gambling in carriages, etc., in transit.

A definition of the word "vehicle" has been added. It is the same as is contained in the Municipal Regulation but with a slight amendment so as to include conveyances used or capable of being used not only on a public street but also elsewhere, for instance on a railway line.

Clause 9.—The word 'and' is replaced by the words "or by," to make the meaning clear and to avoid any misapprehension that both the Deputy Commissioner and the District Superintendent should concur in making the appointment.

Clause 11 (2) (*a*).—This clause is transposed and inserted under clause 10 (2) which is its proper place. It is a little imperfect; for instance, it does not cover the case of an Inspector who ceases to be such, but may nevertheless continue to be a Police Officer, as when he is degraded, and his certificate should become null and void and should be surrendered by him. We have therefore added a new para under clause 10 (1) regarding the certificates of Inspectors. The corresponding provision in the Bombay Act provides for the previous service, if any, being entered in the certificate. We have thought it desirable to note in the certificate the length of the previous service, if any, and have accordingly amended the schedule prescribing the form of certificate by inserting an additional heading.

Clause 12.—The words "adviser of Government in all matters connected with the Police," are omitted, as they appear to be unnecessary and unusual.

Clause 13.—As the clause stands, unless and until any limitation is imposed by Government, the Inspector-General of Police may exercise all the powers a First Class Magistrate. We are of opinion that the Inspector-General should exercise such powers without being specially authorised by Government, and should do so only in such cases and in such manner as may be prescribed by Government. We have therefore amended the clause by adding the words "only in such cases and" after the words "exercise such powers."

Clause 15, Sub-clause (*2*).—We fully approve of the wisdom of the policy of Government enunciated in this sub-clause and are of opinion that it is conducive to the highest public good. We are glad to recognize in the recent act of Government an earnest of the policy of separating the executive from the judicial.

Clause 17.—The expression "any Magistrate in the neighbourhood" has been replaced by the words "the nearest Magistrate," the words used in the Madras Act, XXIV of 1859, and the expression "so many of the residents of the neighbourhood as may be required to act," has been qualified by "so many of the fit and capable male residents," in order to prevent indiscriminate impressment.

Clause 22, Sub-clause (*1*).—It seems to us that the period prescribed for the injured party to prefer an application under this clause for compensation, *viz.*, one month, is too short to meet all cases. We have accordingly extended it to three months and as a consequential change have omitted the expression "or such shorter period as may be prescribed."

Clause 22, Sub-clause (*2*) (*a*) (*ii*).—As the sub-clause stands, the declaration the Deputy Commissioner may make is with respect to the local area the inhabitants of which have caused or contributed to the holding of the unlawful assembly. But application for compensation may be made to the Deputy Commissioner not only by a person who has suffered injury from any act done in the prosecution of the common object of an unlawful assembly, but also from the misconduct of the inhabitants or any class or any section of them in any area referred to in section 21, and the Deputy Commissioner should therefore be empowered to declare the area in which the misconduct of the inhabitants has caused the injury. We have therefore

added the words "to such disturbed or dangerous state or" after the word "contributed."

Clause 22, Sub-clause (6).—What is intended by this sub-clause evidently is that a party who *has taken the amount awarded* by the Deputy Commissioner is precluded from seeking further relief in a Civil Court. But it does not prevent a party in whose favor an award is made but who does not take the amount on the ground of its being inadequate, from going to the Civil Court for redress. In order to avoid any possible ambiguity, the words "and received" are added after "granted."

Clause 26, Sub-clause (3).—The words "under sub-section (1)" are omitted as being unnecessary and as limiting the powers of the punishing authority to the cases mentioned therein, which do not cover all the cases in which a police officer may be punished.

Clause 27, Sub-clause (2).—This sub-clause is somewhat amplified and the right of appeal is affirmed beyond all doubt.

Clause 28.—The words "or Assistant Superintendent" are deleted, as the words "District Superintendent" have been defined to include an Assistant Superintendent.

Clauses 33 and 34.—The words "on conviction before a Magistrate" are inserted between the words "shall" and "be punished" in these clauses, so as to make the sense more complete.

Clause 35.—We are of opinion that this provision is unnecessary. The District Magistrate who has to move the Government generally in such cases can himself take action under Section 144, Criminal Procedure Code. The clause is therefore omitted.

Old clause 36, Sub-clause (3).—*New clause 35, Sub-clause* (3).—We consider that the period of fifteen days fixed for the rule to be in force is too short and have therefore extended it to thirty days.

Old clause 38.—*New clause 37.*—As the clause now stands, it is applicable only to villages and towns proper. We have reason to think that gambling prevails largely outside the towns and villages and by the side of public roads. The scope of the prohibition has therefore been extended by omitting the words "in any town or village" therefrom.

Old clause 42, Sub-clause (2).—*New clause 41, Sub-clause* (2).—As the clause stands, the inhabitants of the place where a festival, etc., are held, are liable to be taxed along with the pilgrims resorting thereto. It seems to us that it is inequitable to tax the inhabitants on such occasions as they already pay taxes in some shape or other. The *raison-d'etre* of special taxation in this connection is the influx of extra and fresh people as pilgrims. We understand that the practice hitherto has been to levy the tax on the outside visitors only. We have accordingly amended the clause so as to make the tax leviable only from the persons repairing to the place.

Old clause 45.—*New clause 44.*—We are of opinion that the power to issue licenses should be reserved in the hands of higher officers, such as Amildars and City Magistrates, and that from order granting or refusing licenses, appeals should lie in the first instance to the District Magistrate, and secondly to Government. We have accordingly added two new sub-clauses marked (1) and (2) and omitted in the original sub-clause (1) (*a*) new sub-clause (3) (*a*) the words "and issue licenses therefor."

Old clause 46, Sub-clause 4.—*New clause 45, Sub-clause 4.*—We consider that such a provision as is made herein, should not find a place in the Regulation, but should be left to be provided for by rules and have therefore omitted it.

Old clause 55, Sub-clause (*k*)—*New clause 54, Sub-clause* (*k*).—The words "knowingly or" are inserted before "negligently" in this sub-clause, as these words are found in the corresponding provision in the Indian Penal Code, Section 289. We have also inserted the words "in any street" between the words "animal"

and "to attack," because the provision as it stands, is needlessly rigorous and may render it an offence to suffer a ferocious dog to be at large even within an enclosed compound, during nights, to guard against thieves and trespassers.

Old clause 63.—New clause 62.—This clause shows how instruments of gaming may be disposed of but not how moneys and securities for money found in a common gaming house and seized under clause 38 of the original bill—new clause 37—may be disposed of. We have therefore inserted the words "moneys, securities for money" after the word "all."

Old clause 76.—New clause 75.—We are of opinion that rewards granted by officers of Government and by private persons should also be brought under the operation of this section and have accordingly amended the clause.

Old clause 77.—New clause 76.—This clause is omitted as sufficient provision has been made in the Municipal Regulation for exempting Police Stations, etc., from payment of taxes and in case any further exemption is required in respect of police buildings intended for the occupation of the members of the Police Force, the necessary provision therefor should be left to be made by subsidiary rules.

Old clause 78, Sub-clause 3.—New clause 76, Sub-clause 3.—The period of one month is considered too short and is therefore extended to two months.

Old clause 78, Sub-clause 4.—New clause 76, Sub-clause 4.—The period of imprisonment fixed is quite disproportionate to the fine which may be imposed for the breach of the rules as an alternative punishment. We have therefore reduced it to eight days.

Old clause 81 (4).—*New clause 79* (4).—This is omitted as sufficient provision to the same effect already exists in the Civil Procedure Code.

The other amendments are unimportant or are consequential to those already mentioned.

We recommend that the Bill as amended by us may be passed into law.

21st January 1908.

Chairman.

PRESIDENT.—The Secretary will read to the Council an abstract of the representations received in connection with the Village Offices Bill.

The Secretary reported to the Council the representations received from Mr. S. Setlur, Mr. Hema Hanumanthaiya, Mr. A. Subramanya Sastri and others and the patels and shanbhogs of Tarikere and other places, regarding the Village Offices Bill.

Bill further to amend the Code of Civil Procedure.

PRESIDENT.—The next subject on the agenda paper is that leave be granted to introduce a bill further to amend the Civil Procedure Code. Mover, MR. S. NARAYANA RAO.

Mr. S. NARAYANA RAO.—Sir, I beg to move for leave to introduce a bill for further to amend the Code of Civil Procedure now in force in the Province.

It may have been noticed that the Government of India have recently introduced into His Excellency the Viceroy's Legislative Council a bill to amend the Civil Procedure Code which recasts the whole Code into a new form altogether, by separating the principles that should guide the Courts from Rules which regulate the minor details of practice. Simplicity and elasticity are claimed for the bill without the introduction of any substantial or radical changes in the existing law. If this bill were to become law, and experience justifies the expectations raised, we may find it advantageous to introduce the same or to model ours after it. This may take a long time, but the amendments covered by the present bill cannot be made to wait indefinitely.

The present bill is a very small measure containing five simple clauses.

The first and second of these clauses refer to Section 310A of the Civil Procedure Code which provides for the cancellation of the sale of a judgment-debtor's immovable property on certain conditions. The first clause in the proposed bill refers to clause (*b*) (ii) of sub-section (1) of Section 310A. This clause, as it now stands, directs the judgment-debtor to deposit in Court an amount equal to the purchase money for payment to the decree-holder, even though such amount exceeds the amount due to the decree-holder. The proposed amendment removes this hardship without introducing any innovation.

The second clause deals with a formal or verbal defect in the language of the said Section 310A, Civil Procedure Code. It will be noticed from the wording of the section as it now stands that it contains no operative clause, and it is proposed to supply the defect by adding a clause to the effect that when the judgment-debtor makes the deposit of purchase money etc., as laid down in the preceding clause, the Court shall set aside the sale.

The fifth clause declares that an order passed under the above-named section is appealable.

The third and fourth clauses are somewhat important. They are intended to remove the congestion of work in the Chief Court by raising the minimum value of suits, in which the second appeals may lie. The second appeals in petty cases are said to have blocked the progress of litigation. To remedy this, it is necessary to alter Sections 584 and 586. Hence the motion for leave to introduce this bill.

MR. KANTHARAJ URS seconded the motion.

MR. M. C. RANGIENGAR.—I beg to submit that the bill for introducing which the leave of the Council is asked consists of two distinct clauses, one, a very desirable amendment of Section 310A, Civil Procedure Code, and the other, in my humble opinion, not a desirable amendment, *i.e.*, of Sections 584 and 586. The right of appeal is in every subject an inherent and a natural right; and before such a right is curtailed to any appreciable extent, a very strong case should be made out. The mere fact that the Chief Court finds itself unable to cope with the appeals before it is no ground to curtail the right.

[*Mr. M. C. Rangiengar; Mr. B. Nagappa; Mr. C. Sreenivasiengar; President; Mr. A. Rangaswami Iyengar.*]

In 1884, when the Code of Civil Procedure was introduced, a special departure was made from the British Code, by providing for the right of second appeal in cases in which the findings of the two lower Courts differed. When there are concurrent findings on facts by two Courts, there is no second appeal. This is because two judges have applied their minds to the case and come to the same conclusion. But when two lower Courts differed in their decisions as regards questions of fact, the Government of Mysore rightly considered that it was right and proper that the case should go before the highest tribunal constituted by Government, for meting out justice to parties. Section 584 was so worded, therefore, as to give the people of Mysore the right of second appeal to the Chief Court when two lower Courts differed in their findings. Now this is sought to be interfered with to some extent. And further, by the amendment of Section 586, the right of second appeal is extinguished in all cases of a small cause nature, under Rs. 500. I submit that as private property in Mysore goes, Rs. 500 represents to a large majority of His Highness' subjects, a large fortune. I submit that these two distinct matters have been clubbed together, a very desirable amendment of Section 310A coming in, what I may be permitted to call bad company with the amendments of Sections 584 and 586, and I submit that a rule may be given as to whether we are to vote on the motion as it stands or whether it could be split so that one may vote for the first part only.

MR. B. NAGAPPA.—I fully concur with my learned friend. In Mysore, valuation of property for purposes of Court-fee depends on assessment and is much less than the market value of land. Almost all cases that arise here relate to land. It being an agricultural country, and the people being poor, the valuation in most cases falls under Rs. 500. It is the experience of one and all, both judicial officers and members of the bar, that we invariably succeed in second appeals, and the decree of the Appellate Court is reversed. The only ground given by the mover for this amendment is that there is heavy work in the Chief Court. I hardly think this is a good ground for the proposed amendment. The circumstances under which second appeal was allowed were considered when Section 584 was inserted, and I submit that no strong case has been made out by the mover to depart from the wise principle laid down in that section. I submit that leave should not be granted to introduce such a measure as is contemplated in the second part of the bill. I propose that the bill may be split into two. I fully concur that the first part is desirable.

PRESIDENT.—This is only a motion for leave to introduce the bill. I do not think that at this stage we need discuss questions of principle involved in the measure. When the bill is read in Council before it is referred to a Select Committee, if necessary, the members may urge their opinions, as regards the principles of the bill and if the Council thinks that any deletion is necessary, it is open to it to approve of only of a part of the bill. So far as the present motion is concerned, I do not think that we need go into the principles of the bill now.

MR. C. SREENIVASIENGAR.—This is only a formality. All that is asked for is leave to introduce the bill. The bill will be introduced and read later on.

MR. M. C. RANGIENGAR.—I accept the ruling of the President.

The motion for leave to introduce the bill was then put to the Council and carried.

The bill to amend the Stamp Regulation, II of 1900.

PRESIDENT.—The next subject is the introduction and reading of the Bill to amend the Stamp Regulation, II of 1900. Mover, RAJAKARYA PRAVINA MR. A. RANGASWAMI IYENGAR.

MR. A. RANGASWAMI IYENGAR.—Sir, under Rule 33 of the rules for the conduct of business, I beg to move that the bill to amend the Stamp Regulation, II of 1900, be read in Council. At the meeting of the Council on the 20th August last, I had the honor of applying for permission to introduce this bill and briefly explained the alterations which are proposed to be made in the Stamp Regulation, II of 1900, by the present bill. That application having been granted, the bill and the statement

[*Mr. A. Rangaswami Iyengar; Mr. M. C. Rangiengar.*]

of objects and reasons explaining in detail its provisions have been published both in English and Kanarese in the Government Gazette of 26th September and 14th November 1907, respectively, and copies thereof have been supplied to the members of the Council.

Only one proposal has been received from Dr. W. F. Smeeth about the stamp duty leviable on mining leases and prospecting licenses and about the definition of the term 'lease.' Dr. Smeeth, while agreeing with me that under the first proviso to Section 26 of the Stamp Regulation, the assumed valuation of Rs. 20,000 where the value of the share or royalty is indeterminate is unsuitable, thinks that neither the Deputy Commissioner nor any one else would ever be in a position to estimate the amount of royalty payable and, therefore, suggests that the question of royalty be left out of consideration altogether in computing the stamp duty payable for the lease and that stamp duty be fixed only on the rent payable for the lease which in ordinary cases would be at the rate of Re. 1 per acre. He further points out that under ordinary circumstances the person who obtains the lease does not proceed to work the property himself and get as far as paying any royalty, and that, if the property is found valuable, it is invariably assigned to a company for a consideration, when the proper stamp duty will be recovered on the assignment.

It does not, however, appear to me quite sound in principle to omit 'royalty' altogether as an item of consideration for the lease. Nor can it be assumed that lessees ordinarily never get as far as paying any royalty or that the property when found valuable will invariably be assigned to a company for a consideration. The proviso in question which was added to the Indian Stamp Act, II of 1899, was a relaxation of the provisions of the then existing law. A further concession having been considered desirable in the case of ordinary mines which may not be very profitable, it was further relaxed by Act XV of 1904, and the District Collectors were empowered to fix the royalty in each case. A similar provision is now proposed to be made in our Stamp Regulation. This point may, however, be discussed in Council. I would suggest that, if necessary, provision may be made for the Government to frame rules for the guidance of Deputy Commissioners for estimating the royalty or that Government may once for all fix the minimum amount of royalty for the purpose of stamp duty.

The second suggestion of Dr. Smeeth is that prospecting licenses should also be stamped according to the amount of annual rent charged therefor. It would be inexpedient to treat these as leases, nor are they instruments requiring stamp duty, being issued by Government.

As regards the definition of 'lease,' under clause 16 of Section 2 of the Regulation, "lease" is defined to mean "a lease of immovable property and includes also a patta, a kabuliat or other undertaking in writing, not being a counterpart of a lease, to cultivate, occupy or pay or deliver rent for immovable property, etc." Dr. Smeeth thinks that this definition does not include 'royalty' as royalty is payable only for minerals which are *removed* by the lessee and cannot be considered as rent for *immovable* property. But as the definition* of immovable property includes benefits arising out of land, the present definition of lease is sufficiently comprehensive and royalty payable on minerals may come under the terms "rent for immovable property."

There are, as far as I am aware, no other questions of a controversial nature involved in the bill and only amendments which are incorporated in the latest Indian Act have been embodied in it. There is, therefore, no necessity for referring the bill to a Select Committee, and I would move that it be read in Council and taken into consideration at the next Council Meeting.

MR. M. C. RANGIENGAR.—I beg to second it. In doing so, I beg for a little information from Mr. Rangaswami Iyengar. It is proposed that in the definition of "settlement" in clause 24, the following words shall be added, namely, "and where any such disposition has not been made in writing, any instrument recording,

**Vide* Section 3 (25) of the General Clauses Act, X of 1897.

[*President; Mr. B. Nagappa; Mr. T. Ananda Rao; Mr. M. C. Rangiengar; Mr. C. Sreenivasiengar; Mr. Ananda Rao; Mr. M. Kantharaj Urs.*]

whether by way of declaration of trust or otherwise the terms of any such disposition." It includes a private letter written by an individual in which a statement is made that there had been a settlement before. "Recording" is rather a spacious word. That is the only point to which I would like to draw the attention of the Council with the object that it may be cleared at the next meeting.

PRESIDENT.—It may be noted for the information of the Council.

MR. B. NAGAPPA.—This may be taken for consideration at the next meeting. The proposal of Dr. Smeeth seems to me to be a very important and proper one. We may consider it at the next reading of the bill as we are not going to have a Select Committee.

The motion was put to the Council and carried and the bill was introduced and read.

The bill to amend the Court Fees Regulation.

PRESIDENT.—The fourth subject for consideration to-day is the motion that the bill to amend the Court Fees Regulation and the Report of the Select Committee thereon be taken into consideration. Mover, MR. T. ANANDA RAO.

MR. T. ANANDA RAO.—Under Rule 46 of the rules relating to the conduct of business at this Council, I beg to formally present the report of the Select Committee appointed to consider the Court Fees Regulation amendment bill and to move that the report and the bill as amended by them be taken into consideration at this meeting.

MR. M. C. RANGIENGAR.—I beg to second the motion.

THE PRESIDENT then read the bill as amended by the Select Committee and took the sense of the meeting, and it was agreed that it may be passed at the next meeting.

MR. C. SREENIVASIEGAR.—The formality about the consideration of the bill at a subsequent meeting may be dispensed with in this case.

The members having agreed, the President said that opinion being unanimous, the bill may be taken as passed.

The Village Offices Bill.

PRESIDENT.—The fifth subject is the motion that the Village Offices Bill, as amended by the Select Committee and their report, be taken into consideration. Mover, MR. T. ANANDA RAO.

MR. T. ANANDA RAO.—Under Rule 46 of the rules relating to the conduct of buisness of this Council, and in slight modification of the notice of motion which stands in my name in the agenda paper, I beg leave formally to present to the Council the report of the Select Committee constituted to consider the bill relating to Village Offices in Mysore, and to propose that the Select Committee's report and the bill as amended by them be taken into consideration at a subsequent meeting of the Council. The notice of the amendments on the agenda paper has been somewhat short and there are some points in the Select Committee's report which require examination.

MR. M. KANTHARAJ URS seconded it.

This was put to the Council and carried.

The meeting was then dissolved, the next meeting being fixed for the 24th February next.

V. P. MADHAVA RAO,
President.

Circular No. 7688-97, *dated 21st—24th January* 1908.

The Deputy Commissioners of districts, the Registrar of Co-operative Societies in Mysore and the Inspector of Cattle Diseases in Mysore are requested to expedite the submission of the budget estimates for the ensuing year 1908-09 in the printed forms prescribed for the purpose.

2. The instructions contained in Chapter II, Part I, of the Financial Rules appended to Government Order No. Fl. 1150-1192—18-01-02, dated 7th February 1903, and those issued by the Comptroller along with the printed forms should be carefully followed in the preparation of the estimates.

3. The following subsidiary instructions which are usually lost sight of in spite of the stress laid upon them every year are restated for being kept prominently in view in preparing the estimates for the ensuing year :—

(i) It should be remembered that the budget estimate of receipts and varying charges of every year should be prepared with special reference to the requirements and probable conditions of that year. It should neither be a mere repetition of the previous year's figures nor an arithmetical average of three years' figures. The average is a guide but it should not be taken absolutely. In estimating receipts of Land Revenue, for instance, if any one or more of the last preceding three years, was a bad year, it should be excluded and the average of the last three *normal* years taken into account. It should also be remembered that the total gross demand of Land Revenue for the year should not be taken as the estimate of the year, but only that portion of it as can be expected to be actually collected during the year.

In all cases where the estimates differ markedly from the actuals of the previous three years, such variations should be fully and clearly explained.

Opposite to every item of fluctuating charge such as travelling allowances and contingent charges, a note should be made of the actual expenditure of each of the three previous years, for purposes of ready reference.

(ii) All the three blank columns in Appendix A should be filled up and the figures under item IX thereof should be identical with the figures under Receipts 1. Land Revenue. The figures in column 2 of the Appendix, *viz.*, Revised estimate for 1907-08, should not be a mere repetition of the figures of the budget estimate, but revised figures based upon the actual collections up to date and the probable collections for the remaining portion of the year (due allowance being made for any unforeseen change in the seasonable conditions, for any remission of, or suspension of collection of, revenue that may have been or is likely to be sanctioned) should be furnished.

(iii) The scale of officers and establishments shown in the printed forms issued by the Comptroller relates to the *whole* State and in the estimates prepared by the Deputy Commissioners the figures should be altered in *red* ink so as to show the *correct* scale for each district, and all printed entries not pertaining to the district should be carefully scored out. Similar alterations should also be made in the Appendix B, the figures for the other districts being scored off.

(iv) The statement of progressive salaries required under Rule 10, Part I, Chapter [illegible] of the Financial Rules should be submitted in triplicate in the form prescribed by the Comptroller and shown in the instructions appended in the printed forms. Appointments carrying similar salaries should not be grouped together and each appointment with all the prescribed particulars should be separately shown. The

pay that has to be provided for in the budget is what the permanent incumbment may earn on 1st July next and not that of the acting official or what the incumbent may draw any time before or after that date.

(v) The statement showing the numerical strength of sanctioned establishments required under para 14, Part I, of Chapter II of the Financial Rules should be submitted in duplicate.

(vi) In the case of supernumeraries, the Government order or other authority under which they are borne as such should be quoted.

(vii) As in the absence of the officewar details showing the scale, etc., of the establishment of the several offices it is impossible to varify the entries in the budget estimate, every attempt should be made to send these details with the budget estimates.

Full details (showing the name of the tank or channel, the scale of establishment, and the Government order sanctioning the same) for the estimate under "2B. Land Revenue (2) charges of District Administration IV, Miscellaneous—establishment for channels and tanks" should also be furnished with the budget estimate. Such details were furnished last year only after repeated reminders were issued from this office, and even those that were furnished were neither full nor correct. It is hoped that this year the details will be complete and accurate.

(viii) All items of charge that have been by express orders of Government postponed to the ensuing year should be provided for without any omission.

4. As the consolidated estimates are due in the Financial Department of the Secretariat on the 15th March 1908, every endeavour should be made by the officers named above for the submission of their estimates to this office before 15th February 1908. Delays in the submission of the estimates retard the compilation of the consolidated budget, limit the time requisite for the due consideration of the demands made and occasion undue haste in the disposal of subjects which should be dealt with in a deliberate and careful manner. The officers concerned are therefore requested to pay their personal attention to the matter and make proper arrangements for submitting the estimates before the due date.

Circular.

Subject :—

1. Correspondence ending with letter No. 131, dated 12th August 1907, from the Deputy Commissioner, Tumkur District, on the subject of the maintenance of avenue trees and the extension of avenues.

2. Correspondence ending with letter No. 137, dated 15th August 1907, from the Deputy Commissioner, Mysore District, on the same subject.

No. 7628-35, *dated Bangalore,* 21*st*—23*rd January* 1908.

ORDER :—

It is essential that the best attention of the District and Taluk Officers should be devoted to the maintenance of existing avenue trees, supply of vacancies, and planting of new avenues where required. There are absolutely no avenue trees along many roads of recent construction, and almost everewhere avenue trees are damaged by indiscriminate lopping off of branches for feeding cattle and sheep, or for running up temporary sheds. With a view to conserve the existing avenue trees and to encourage planting in localities where there are none, or where there are only a few and at distant intervals, the following instructions are issued for the guidance of local officers :—

1. The pits for planting cuttings and putting in seeds should not be made by driving pointed sticks or iron crowbars into the ground, as holes so made are not sufficiently spacious and do not admit for the earth being sufficiently pulverised to afford facility for the plant to throw out roots and draw sufficient nourishment. Pits measuring not more than 3 feet broad and 1½ to 2 feet deep should be dug and filled in with loose earth and left exposed to the atmosphere for some days before the seeds are put down, or cuttings or seedlings raised in nurseries or baskets planted. It is always desirable to put in one or two seeds along with a cutting which should be neither too thin and weedy nor too thick.

2. The pits should then be protected by a fence of "gobli" or other thorns, or a mudwall in the maidan parts with an opening on a proper slope to admit of the surface drainage finding its way into the pits.

3. The cuttings should also be protected by covering them with date leaves where possible to prevent goats, etc., from eating up the tender shoots.

4. Only such species should be selected for purposes of avenues as would thrive in the locality, having due regard to the nature of the climate, the facility for water and the

requirements of the trees in respect to moisture in their early growth. The following are some of the trees suitable for avenues :—

Mavu	... Mango.
Bevu	... Neem.
Nerale	... Blackplum, Jamoon.
Atti	... Country fig.
Ala	... Banyan.
Jali	Babut.
Hunise	... Tamarind
Ippe	...
Tadasalu	...
Sampige	... Champæ.
Nelli	Emblic Myrobalan.
Bilpatre	... Bael.
Byala	... Wood Apple.
Honge	... Indian Beech
Halasu	... Jack.
Goni	...
Jalari	... Lac tree.
Yelachi	... Indian Jujabe.
Challe.	
Basari.	
Java fig.	
Gold Mohar.	
Cassia Florida.	
Spithodia.	

5. Jack, mango or other valuable fruit trees may be planted at places where the soil is good and likely to have sufficient moisture.

6. Where avenue trees are growing on land forming part of old survey numbers belonging to private persons, who however have no right to the strip of land on which the trees stand, care should be taken that these trees are not enclosed within such holdings.

7. All round the plants, the ground should be kept clear of weeds and grass which should be removed as soon as they appear.

8. On no account should branches of the avenue trees be allowed to be cut or removed to serve as fodder for goats, etc. In extreme cases of necessity small branches not exceeding the thickness of a finger may be allowed to be cut. It shall be the duty of the village officers and servants of road-side villages to maintain strict watch in this respect.

9. Care should be taken that the branches of avenue trees do not become a source of obstruction to carts and other conveyances passing along the road. The Hobli Shekdar, in the course of his periodical inspections, should see that no branches are within 8 feet from the surface of the road. He may cause a bamboo pole 8 cubits long to be carried erect along the margin of the road on each side and have all such branches as come in contact with the pole cut with a saw. It should be distinctly understood that only overhanging portions and not the whole main branch from the trunk should be lopped.

10. When such avenue trees have been planted by a private person he will have a right to the usufruct which includes the right to take the leaves and fruit thereof without injuring the tree, the right to remove dead wood and the right to remove the branches lopped off under circumstances referred to in para 9 provided he has rendered the necessary aid to the Shekdar in lopping the same.

11. A Hobliwar register should at once be opened of the trees in the different roads and avenues as per form enclosed. Trees more than four years old should be numbered as trees and those less than four years old as plants.

12. The avenue trees within the limits of each village shall be in charge of the Patel of that village, except when another Patel has been in charge of the same by mamool or by express order, and shall be responsible for their due preservation. He shall be given an extract from the Shekdar's register showing the portions of the road and the number of avenue trees for which he is responsible.

13. The Deputy Amildars and Amildars should take personal interest in the matter and the Jamabandi Officer should carefully inspect during his jamabandi tour the condition of the avenues and the work done during the year. The Hobli Register should be examined for purposes of check and verification and the results should be entered therein along with the remarks of the Inspecting Officers.

A special para should be devoted to this subject in the Jamabandi Reports and the Deputy Commissioners are also requested to review the same in their Administration Reports.

To—The Deputy Commissioners, Treasury Department, of all Districts and the Officer in charge, State Huzur Treasury, Bangalore.

As there appears to be some misconception as to the period for which Revenue, Judicial and Personal Deposits should be retained in the Deposit Registers, and when they should be credited to Government, under Article 255 of the Civil Account Code, the undersigned has the honor to issue the following instructions which are merely explanatory of Article 255 of the Code. This office Circular No. 2826—542, dated 20th November 1905, which has apparently given rise to the misconception owing to its being not quite explicit will no longer be quoted.

1. All deposits will lapse at the close of the first, the second or the third account year following the year of deposit. In no case may they be retained in the Deposit Registers for more than three account years subsequent to the year of deposit.

2. In the case of deposits exceeding one rupee—

(*a*) If they are partly repaid in the year of deposit, and the balance is thereby reduced to a rupee or less, the balance will lapse at the close of the following year, *i.e.*, the first account year following the year of deposit.

(*b*) If the balance after repayment or repayments be reduced to a rupee or less in the first account year following the year of deposit, the balance will lapse at the close of the succeeding year, *i.e.*, the 2nd account year following the year of deposit.

(*c*) In all other cases in which either no repayment is made or the balance after repayment exceeds one rupee, the deposits or the balances of deposits, as the case may be, will lapse at the close of the 3rd account year following the year of deposit.

3. In the case of deposits not exceeding one rupee they will lapse at the close of the first or the second account year following the year of deposit as detailed below. In no case will these deposits be retained in the Deposit Registers for the third account year following the year of deposit :—

(*b*) If a repayment be made in the year of deposit the balance will lapse at the close of the year following the year of deposit irrespective of a repayment being made in the latter year or not.

(*c*) If no repayment be made in the year of deposit, and one is made in the year immediately following, the balance will lapse at the close of the account year following the latter, *i.e.*, at the close of the second account year following the year of deposit, irrespective of a repayment being made in that year or not.

Deputy Sany. Comr., Mysore Govt.

OFFICIAL MEMORANDUM.

No. 7638-45, *dated* 18*th*—23*rd January* 1908.

Subject:—

Government were pleased to prescribe in their Order No. R. 9717-26—R. M. 264-06-4, dated 3rd May 1907, a half yearly return of prices in place of the old monthly return. The return according to the above order is due in this office on 1st October and 1st April each year. The returns for the half year ending 30th September 1907 were received from the several districts on the following dates:

1. Shimoga, 7th October.
2. Chitaldrug, 29th October.
3. Tumkur, 8th November.
4. Bangalore, 12th November.
5. Kadur, 19th November.
6. Kolar, 20th November.
7. Hassan, 30th November.
8. Mysore, 12th December.

Recorded with the observation that no district submitted the return in time. The longest delay occurred in the Mysore District, the return having been submitted after a delay of two months and twelve days. It is hoped that in future the return will be submitted punctually on the due-date.

The fluctuation in prices of the same article in different districts is very noteworthy in some cases. Thus the average price of Haraka is quoted at fifty-one and a quarter seers per rupee in Bangalore and fourteen and a half seers in Chitaldrug, while the price in the other districts is on an average, twenty-five seers a rupee. The discrepancy may be due to the fact that the grain is grown in small quantities and there is not much demand for it in some parts.

Again coriander is stated to be sold in the malnad parts of the State very cheap, *viz.*, fifty-four seers a rupee in Hassan, forty-two and a half in Shimoga and thirty and a half in Kadur, while the average price in the maidan parts is sixteen seers a rupee. There must be evidently some mistake in this which requires to be cleared up.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

PART III.

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. 306—L. C. 20-07, dated 5th February 1908.

Under Rule 31 of the rules for the conduct of business of the Mysore Legislative Council, the accompanying bill further to amend the Code of Civil Procedure is published for general information, together with a statement of objects and reasons therefor :—

Draft of a Bill further to amend the Code of Civil Procedure.

Preamble.

Whereas it is expedient further to amend the Code of Civil Procedure as in force in Mysore, His Highness the Maharaja is pleased to enact as follows :—

Amendment of Section 310(A)

1. The following shall be substituted for clause *b* (ii) of sub-section (1) of Section 310 (A) :—

"for payment to the decree holder, a sum equal to the purchase money, together with the costs of the attachment and sale, provided that in cases in which such sum is less than the amount specified in the proclamation of sale as that for the recovery of which the sale was ordered (less any amount which may since the date of such proclamation of sale have been received by the decree holder), it shall not be necessary for the judgment-debtor to pay more than this latter amount."

2. The following shall be added between sub-sections (1) and (2) of the said Section :—

"(1A). If such deposit is not made within thirty days of the sale, the court shall pass an order setting aside the sale."

Addition to Section 584(*d*).

3. In clause (*d*) of Section 584 of the said Code, after the words "in those cases," there shall be inserted the following words, namely :—

"of which the amount or value of the subject matter is five hundred rupees or above, and."

4. In Section 586, for the words "fifty rupees," the words "five hundred rupees," shall be substituted.

Amendment of Section 586.

Addition to Section 588.

5. To Section 588 of the said Code, the following clause shall be added, namely :—

"(16 A). Orders under Section 310A."

STATEMENT OF OBJECTS AND REASONS.

The accompanying Bill is intended to rectify certain formal defects in the Code of Civil Procedure as amended by Regulation, III of 1906, and to promote the speedier disposal of business in the Chief Court by curtailing the right of second appeal to a certain extent.

2. As Section 310A introduced by Regulation, III of 1906, stands, the judgment debtor is in all cases required to pay into Court in addition to the 5 per cent of the purchase money payable to the purchaser as and by way of compensation for the cancellation of the sale made in his favor, the full amount of the purchase money together with the cost of attachment and sale, for payment to the decree-holder. It will be seen that the section thus makes the decree-holder entitled to the whole amount of the purchase money even though the same may be greater than the decretal amount which is all he can justly lay claim to. To remedy this apparent inconsistency, clause (ii) has now been amended suitably. Also a new sub-section has been added to it to make it clear that where a deposit is made, the Court shall pass an order setting aside the sale. A clause has also been added to Section 588, so as to render orders under Section 310A appealable, a fact already implied in Sub-Section (4), Section 310A.

3. When the Code of Civil Procedure was introduced into Mysore in 1884, clause (*d*) was added to Section 584 so as to allow to the Chief Court (then newly formed, with three Judges) a second appeal on questions of fact when the two lower Courts differed in opinion on such questions. The Chief Court have recommended that either clause (*d*) may be repealed altogether, or that the provisions in regard to second appeals on questions of fact may be limited to appeals of the value of Rs. 500 and over. Considering the fact that the decrees of the Chief Court are final in Mysore, and that there is no further appeal to a higher tribunal as in British India, the Government are of opinion that the second alternative is the preferable one. Hence the amendment proposed as regards Section 584.

4. Section 586, as amended by Regulation, II of 1884, allows second appeals in all suits of a small cause nature exceeding Rs. 50 in value. The limit is Rs. 500 in British India ; and there seems to be no good reason why the limit should not be similarly raised in Mysore. The Chief Court have urged the change on the ground that second appeals in petty cases have greatly blocked the progress of litigation. Section 586 is proposed to be amended accordingly.

By Order,
K. MYLAR RAO,
Secy., Mysore Legislative Council.

APPEAL TO EXHIBITORS.

Brussels, October 30th 1907.

A Universal and International Exhibition will open at Brussels in the month of April 1910, and will last for at least six months.

The four Universal and International Exhibitions previously held in Belgium, namely at Antwerp in 1885 and in 1894, at Brussels in 1897, and at Liege in 1905, proved eminently successful, and there is every reason to hope that their success will be equalled and even surpassed by the World's Fair now under organisation in the *Capital* of Belgium. The intended Exhibition will include, as to its chief divisions, the following Groups :—

XXI—Sports.
XXII—Congresses and Conferences.

Brussels is extending day by day and the public Authorities do everything in their power to justify the name which it already has of being one of the finest *Capitals* of Europe.

Only recently its territory has been considerably added to by the incorporation of a large amount of land running alongside the *Bois de la Cambre*, the favorite resort of the Brussels people.

On this marvellously situated spot covering, as it does, more than 200 acres, halls and pavilions will be erected, ready to accommodate productions from all over the world.

Broad tree-set avenues will connect the Avenue Louise with the entrance of the Exhibition, while tramway lines will ensure communication with all the suburban districts of the City.

How delightful it will be for the visitors, after spending the greater part of the day in thoroughly going over the galleries, to be able to enjoy from the terraces, in the cool of fine summer evenings, the glorious scenery of the sunset lighting up in crimson the beautiful foliage of the grand trees of the forest—a magnificent frame encircling the vast arena where the workers of the whole world will soon gather to wrestle with each other in a courteous and peaceful manner.

The Exhibition grounds will be connected with the Belgian State Railways.

The Principal Palace as well as the Halls of the Exhibition will be built of iron and covered with hard materials ; the Palace will be surrounded by a *vast Park* containing numerous attractions.

Adopting the idea suggested by the magnificent displays witnessed at Turin and Milan, the organisers contemplate the creation of an international section of *Modern Decorative Art.*

The *Machinery Hall* will have, annexed to it, a working gallery where numerous workshops will continually be in operation under the eyes of the public. Special attention will be paid to the installation of a compartment of *small tools* and of motors for performing *work at home*.

A special Palace may be reserved for *Retrospective and Modern Exhibitions of Lighting appliances* of every description.

As was done at the Liege Exhibition in 1905, *Female Arts and Industries* will be the subject of a special organisation.

With the view of giving effect to the resolutions adopted at the Congress of the World's Expansion held at Mons in 1905, the Executive Committee will make it a point of arranging Groups in connection with Trade and Colonisation.

The programme will also include special exhibitions, *temporary Agricultural and Horticultural Shows, Congresses, Conferences, Artistic Fetes* and *Competitions* of all kinds, so as to afford visitors every possible *attraction.*

Further, the Executive Committee will give their patronage to the formation of a *Commercial Bureau* on the premises, which besides affording the exhibitor a means of protection of his interests at the Exhibition, will at the same time be a source of diffusion of his industry.

The *Commercial Bureau* will centralise all information concerning the industries represented ; it will place Engineers at the disposal of such visitors as may wish to be guided over the Exhibition and it will endeavour, in every possible way, to promote the development of commercial intercourse between the countries gathered together at this World's Fair.

The necessary measures will be taken for *protecting* in Belgium patentable *inventions*, industrial designs or models, and manufacturing or trade marks appearing at the Exhibition.

The Government will grant on the State Railways *free transport* of *Belgium products* returning from the Exhibition.

The Exhibition will be treated as an *actual bonded warehouse*, foreign goods consigned to the Exhibition being allowed provisional *duty-free importation*, subject to being afterwards re-exported.

The general Regulations, the classification of exhibits and conditions of admission will very shortly be settled ; a plan has already been adopted consisting in dividing the goods according to National Compartment, *viz.*, grouping together the works and productions of each country combined with a system of general classification.

The price for space will include the expenses of general decoration and handling charges ; exhibitors will thus be enabled to ascertain beforehand the exact outlay incumbent upon them.

A *Lottery* will be organised under the authority and supervision of the Government ; the prizes will be purchased from amongst the exhibits.

An *International Jury*, appointed with the approbation of the Government, will undertake the allotment of awards.

The *Belgian Government* have appointed a Commissioner General to act as their Delegate to the Executive Committee of the Exhibition and Foreign Sections, and a Commission will shortly be instituted for the purpose of inducing Belgian producers to concur, and of furthering their participation.

The Exhibition is placed under the *High Patronage of His Majesty the King of the Belgians and the Honorary Presidency of H. R. H. Prince Albert of Belgium.*

It has already secured the effective co-operation of the Belgian Government as well as the support of the City of Brussels.

The profits realised by the undertaking are to be applied to the organisation of *Fetes* and *Rejoicings* of an attractive character so as to draw people to the Exhibition and to the Capital, and the surplus, if any, will be devoted to a *Fund of Public Utility.*

The chief object of the organisers is to promote and develop international dealings, namely to extend outlets for *Industry*, to open up broader fields of action for *Trade*, and moreover to increase and multiply the *commercial relations* between all Nations.

The Executive Committee therefore warmly appeal to every Nation of the Globe, in the hope that all countries will direct their combined efforts towards collecting at Brussels a large and choice selection of exhibits in evidence of the importance attached to the pursuit of progress in every branch of human activity.

ORDERED that the foregoing papers be published in the Supplement to the *Gazette of India*, for general information, and that copies be forwarded to the Local Governments and Administrations named in the margin, for information.

Edward the Seventh, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, to all to whom these Presents shall come, Greeting!

Whereas We are desirous of distinguishing by some mark of Our Royal Favour the many heroic acts performed by Miners and Quarrymen and others who endanger their own lives in saving or endeavouring to save the lives of others from perils in Mines or Quarries within Our Dominions and in territories under Our Protection or Jurisdiction, We do by these presents for Us, Our Heirs, and Successors institute and create a new Medal to be awarded for such acts of gallantry.

Firstly.—It is ordained that the Medal shall be of two classes, which shall be designated and styled "The Edward Medal of the First Class" and "The Edward Medal of the Second Class."

Secondly.—It is ordained that the Edward Medal of the First Class shall consist of a circular Medal of Silver with Our Effigy on the obverse, and on the reverse a design representing the rescue of a miner with the inscription "for courage."

Thirdly.—It is ordained that the Edward Medal of the Second Class shall consist of a Circular Medal of Bronze of a similar design.

Fourthly.—It is ordained that the Medals shall only be awarded to those of Our Faithful Subjects and others who, in saving or endeavouring to save the lives of others from perils in Mines and Quarries within Our Dominions and in territories under Our Protection or Jurisdiction, have endangered their own lives, and that such award shall be made only on a recommendation to Us by Our Principal Secretary of State for the Home Department.

Fifthly.—It is ordained that the names of those upon whom We may be pleased to confer either of these Decorations shall be published in the *London Gazette*, and that a Register thereof shall be kept in the Office of Our Principal Secretary of State for the Home Department.

Seventhly.—It is ordained that any act of gallantry which is worthy of recognition by the award of the Edward Medal, but is performed by one upon whom the Decoration has already been conferred may, on a recommendation to Us by Our Principal Secretary of State for the Home Department, be recorded by a Bar attached to the riband by which the Medal is suspended; and for every such additional act an additional Bar may be added.

Eighthly.—In order to make such provision as shall effectually preserve pure these most honourable Decorations it is ordained that if any person, on whom either of such Decorations is conferred be guilty of any crime or disgraceful conduct which, in Our judgment disqualifies him for the same, his name shall, by an especial Warrant under Our Royal Sign Manual be forthwith erased from the Register of those upon whom the said Decoration shall have been conferred and his Medal shall be forfeited. And every person to whom the said Medal is given shall before receiving the same, enter into an agreement to return the same, if his name shall be so erased as aforesaid under this regulation. It is hereby further declared, that We, Our Heirs and Successors, shall be the sole judges of the circumstances demanding such forfeiture. Moreover, We shall at all times have power to regrant a Medal to any person whose Medal may at any time have been forfeited.

GENERAL NOTE.

Hitherto three publications were annually issued from the office of the Director of Statistics, *viz*:—

1. Agricultural statistics for the current year and the previous four years.

2. Outturn of certain selected crops for each year with figures for previous years commencing from 1897-98.

3. Retail prices of some principal articles of food for each year with figures for a number of previous years.

In accordance with Government Order No. R. 778—Agri. 172-06-3, dated 1st August 1907, all these three publications are now published in one volume commencing with the year 1905-06 together with a statement showing the monthly and annual rainfall as Part IV. The figures are confined to the year under report and the previous year.

2. The following is a brief summary of the more important variations in the figures.

PART I.—Agricultural Statistics.

There is an increase of 2,640 acres in the total area, (column 2 Table A-1 area according to professional survey) due chiefly to more accurate measurements in connection with the revision settlement operations in the Challakere and the late Budihal Taluks.

2. The total area of the State is nearly 19 million acres, out of which no returns have been received for over $1\frac{1}{3}$ millions. Out of the balance of about $17\frac{1}{2}$ million acres, $1\frac{4}{5}$ million acres are under Forest. It should be explained that though in the explanatory memorandum issued with Govt. Order No. 3473-80—R 1100, dated 6th October 1897, under para 5, Forest means any land classed or administered as Forest and includes also District Forests, yet as the latter are not separately mapped, Amrut Mahal, gomal and kharab lands which under the Forest Regulation and Rules are treated as District Forests, are not shown under this column but in the next column. The rights and privileges of raiyats in the latter comprise mostly of grazing and dry fuel while all other produce is collected by the Forest Department. Thus the area which should come under Forests in column 2 if properly classified would be far in excess of the total, *viz.*, 1,800,000 acres, shown under that column. The total extent of free-grazing and Hulbanni lands being about 4,922,995 acres and State Amrut Mahal Kavals about 418,145 acres as per area return furnished by Districts, the aggregate total of lands really administered by the Forest Department would be very nearly 7 million acres. About $8\frac{2}{3}$ million acres are available for cultivation, about $1\frac{2}{5}$ million acres are still unoccupied, while the total occupied area amounts to about $7\frac{1}{4}$ million acres, of which $5\frac{2}{3}$ millions were cultivated during the year.

PART IV.—Rainfall.

3. The rainfall during the year was defective, the average total for the State being only 27·37 inches as against 29·69 inches in the previous year and an average of 36·93 inches for the previous 35 years. The year 1904-05 was in itself a year of deficient rainfall and the year 1905-06 was worse. In all the districts except Hassan and Shimoga there was less rainfall than during the previous year. The result of such successive failure of the seasons was disastrous to the crops as explained in the following paragraphs.

PART I.

4. (*a*) The total net area cropped (Table A-2) during the year 1905-06 was 5,779,850 acres being less than that of the previous year by 146,846 acres or a percentage of 2·4. "Current fallows" (figure in column 5) showed a corresponding increase of about 141,000 acres.

(*b*) The decrease in the net area cropped was spread over all the districts except Bangalore and Chitaldrug. The largest decrease occurred in the Shimoga District (97,000 acres). Next come in order the Districts of Tumkur (with 45,000 acres), Kolar (with 17,000 acres), Kadur (12,000) acres, Mysore (10,000 acres) and Hassan (4,000 acres).

5. There was a decrease of nearly 45,000 acres in the area irrigated (Table A-2 column 13), the bulk of which (28,000 acres) was in the Shimoga District and the remainder in the Kolar and Tumkur Districts; the decrease occurred largely under areas irrigated by tanks.

6. (*a*) *Areas under different crops, Table A-3.*—There was decrease under several heads while there was an increase under some. The decrease was distributed mainly as under :—

	Acres.
Ragi	62,421
Rice	43,916
Oil-seeds	27,958
Condiments	25,277
Gram	27,576
Kambu	23,806
Other food grains including pulses	71,724
Total ...	282,678

It may be noted that the decrease under "other food grains including pulses" occurred in all the districts except Chitaldrug; that under ragi in all except Hassan and Kadur; that under rice in all the districts except Mysore; that under oil-seeds in all except Tumkur and that under condiments in all except Hassan. All the districts except Bangalore, Kadur and Chitaldrug exhibited a decrease under gram and all the four districts in which kambu is grown showed a decrease under that head.

(*b*) There was increase under the following heads :—

	Acres.
Cholam	44,871
Sugar-cane	1,561
Cotton	15,164
Miscellaneous non-food crops (like mulberry, etc.)	30,752
Total ...	92,348

7. *Table C.*—The incidence of total Land Revenue (excluding cesses) per head of population for the whole State, including alienated villages, was Rs. 1-12-4 during the year as against Rs. 1-12-5 in the previous year. But taking only the fully assessed area and the population of that area the incidence works out at Rs. 1-13-6 per head as against Rs. 1-12-8 in the previous year.

8. *Table D.—Varieties of tenure.* (*a*) There was a decrease of 15,037 in the number of small holdings held separate and direct from Government (the bulk of which, *viz.*, 9,807, occurred in the Shimoga District) though there was an increase of 57 in the total number of villages. The largest increase in the number of villages in which the holdings exist also occurred in the Shimoga District. This large decrease, in spite of the increase in the number of villages, in the Shimoga District, deserves investigation. There was increase of 43,294 in the number of holders or share-holders and the average area of each holding was 6·66 acres in the year and the average assessment of each holding 8·73 rupees as against 6·59 acres and 8·69 rupees respectively for the previous year.

(*b*) There was an increase of 22,916 acres in the gross area held wholly or partially revenue free and of 804 in the number of holders of such tenure. The Deputy Commissioners of Districts should in future explain briefly the causes which account for variations under these heads.

9. *Table E.*—There were during the year 1,494 transfers of lands involving 3,444 acres by order of Courts as against 1,313 involving 6,027 acres in the previous year. Transfers by private contract or gift numbered 17,014 involving 88,335 acres against 16,374 involving 77,716 acres in 1904-05.

10. *Table G.*—While all the returns are for the official year the returns relating to coffee alone are for the calendar year. The total area under coffee during the year was 101,489 acres against 101,319 in the previous year. Even though the area increased by 170 acres, the total yield decreased by about 50 per cent, being 5,964,544 lbs. against 11,874,735 lbs. in 1905.

11. *Table H.*—The area under cinchona was 112 acres during 1905-06 against 111 acres during 1904-05, but the quantity of bark collected during the year was only 275 lbs. against 3,000 in 1904-05.

PART II.—Out-turn of certain Selected Crops.

12. Part II contains the area and out-turn in regard to paddy, ragi, horse-gram, cholam and sugar-cane. The total area under rice given in Part I Table A-3 differs from that shown under paddy as given in Part II for the year 1904-05, largely in the districts of Shimoga and Hassan; in regard to ragi the figures are the same in both the Parts and in regard to sugar-cane the difference is very slight; while under cholam again there is large difference between the figures in these two Parts in the districts of Mysore and Chitaldrug. The Deputy Commissioners of districts should in future fully explain the causes which contribute to this variation.

554

13. (*a*) In the out-turn of paddy which is the chief staple article of food in the Province for the higher and the middle classes, there was a decrease of about 100,000 khandies which is attributable partly to the decrease in the total area under paddy and partly to poor harvest. Taking the State as a whole, the out-turn was less than 50 per cent of the standard out-turn.

(*b*) In the Mysore District alone there was an increase of 4,200 acres in area and increase of 153,745 khandies in yield thus showing that the harvest during the year was much better than that of the previous year. In the Shimoga District on the other hand, though the area under the crop had increased by about 2,900 acres, the estimated actual out-turn went down from 10·7 annas to 7·5 annas of the standard out-turn.

14. Ragi, the staple article of food of the raiyat population, fared better during the year. Though there was decrease in the area under ragi, the yield was better than in the previous year by 254,000 khandies. All districts except Hassan and Chitaldrug contributed to this increase. In the Hassan District, though the area under ragi showed an increase of nearly 2,500 acres there was a decrease in the yield amounting to 22,000 khandies.

15. *Horse-gram.*—The area under this crop and its estimated actual yield during the year increased by about 21,000 acres and 99,400 khandies, respectively. In the districts of Chitaldrug and Hassan there was decrease both under area and out-turn. In the Kolar District there was decrease in area under crop, but increase in out-turn; in the Chitaldrug District the case was the very reverse, there being a decrease in out-turn though there was increase in area. The crop in the Bangalore and Mysore Districts seems to have been very good as in the former the yield rose from 24,130 to 44,083 khandies and in the latter from 86,657 to 160,483 khandies.

16. *Cholam.*—Though there was an increase of 61,000 acres in the area under this crop the yield was less than that of the previous year by 15,100 khandies. In the Mysore and Chitaldrug Districts where this crop is largely grown, the harvest seems to have been poor as there was decrease in yield though the area under crop had increased.

17. (*a*) *Sugar-cane.*—The area under this crop increased by about 1,300 acres and the yield by 337,000 maunds of jaggory.

(*b*) In the districts of Bangalore and Kolar there was increase in production though there was decrease in area under crop and in these two districts the crop seems to have prospered. In the districts of Tumkur and Kadur the case was the reverse, the yield having decreased in spite of increase in area. In the districts of Chitaldrug and Shimoga both the area and the yield decreased. In Mysore and Hassan there was increase both in area under crop and in yield. The out-turn seems very poor in Hassan and Kadur.

PART III.—Prices of some Principal Articles of Food.

18. Prices of food grains, namely, rice, 1st sort, rice, 2nd sort, ragi, cholam and Bengal gram, were higher throughout the year as compared with the preceding year in all the districts but the price of salt was lower in all the districts except Chitaldrug where it remained almost stationary.

EXPLANATORY MEMORANDUM ON THE ANNUAL AGRICULTURAL STATISTICAL RETURNS **A** TO **E** AND INSTRUCTIONS FOR COMPILING THEM.

1. The revenue year commences on 1st July and ends on 30th June. The returns are due in this office on or before the 15th August following.

2. *Table A.*—Table A consists of four sections, *viz.*, A-1, A-2, A-3 and A-4 and contains figures for districts (pages 1-9) as well as for taluks (pages 25-105).

3. *Table A-1.*—Column 2 shows the gross area as ascertained by the Survey and Settlement Department, and is subject to correction according as errors are discovered in re-survey of tracts.

(*a*) Column 3 shows the areas of alienated tracts (such as Jahgir, Jodi, Sarvamanyam and Kayamgutta villages) for which the statistics required for the other sections of the table are not at present forthcoming in whole or in part. When such statistics become available the area in this column will be reduced and that in column 4 will correspondingly be increased.

(*b*) Column 4 gives the remainder which is dealt with in Tables A-2 and A-3.

4. *Table A-2*—Column 2, "Forest" means any land classified or administered as forest under the Forest Rules, and includes District Forests and State Forests and Plantations separately mapped. Details of these should be invariably noted at foot of the return.

(*a*) Column 3 includes land absolutely unfit for cultivation, land reserved as pasture (gomal lands and kavals of sorts), public topes and Government plantations, and also all lands covered by buildings, roads, water, etc., or otherwise devoted to uses other than agriculture. When with due sanction any of these areas are made available for cultivation, they should be transferred from this column to column 5 or 6. The extent of "Pot Kharab" forming part of survey numbers should be included under this column, the same being excluded from columns 4, 5 and 6.

(*b*) Column 4 shows the area of assessed unoccupied land.

(*c*) Columns 5 and 6 show the areas of assessed occupied land not cultivated ("Kabuli-banjar") and cultivated respectively as found in the abstract at foot of the Pahani Account (Village Account Form No. 3). Minor Inams in Government villages are included herein. In Mysore there is no system of fallows properly so called. Column 5 will therefore show land in occupation kept uncultivated from whatever cause.

(*d*) The total of these 5 columns will of course equal the figure shown in column 4 of Table A-1.

(*e*) Columns 8 to 12 show only the actual area of irrigated land, areas (if any) cropped more than once being reckoned but once.

(*f*) Columns 14 to 17 should contain the actual area of irrigated crops, areas cropped more than once being counted as separate areas for each crop.

5 *Table A-3.*—This is based entirely on the Pahani Account (Village Account Form No. 3), and shows the gross cultivated area under each crop irrespective of irrigation and double cropping, the area under the latter being included in the statement but subtracted in column 42. The area dealt with is that shown in column 6 of Table A-2. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the shanbhog on his own judgment. The areas comprised in this return are the areas actually sown, whether the crop comes to maturity or not. The failure of the crop should affect not its area but its outturn. Where fields owing to the failure of the first sowings have been devoted to other crops, the area sown by the first sowings should be omitted.

The crops to be selected for inclusion in certain heads of this table are as follows:—

Column 9.—*Gram* (pulse) should include horse gram, Bengal gram, green and black grams.

Column 10.—*Other food grains including pulses.*—Samè, haraka, navanè, avarè or ballar, tuvar, or togari, tadagani or alasandi, etc.

Column 15.—*Others (oil seeds.)*—Castor oil seeds, inferior sessamum (hutchellu), ground-nut or nelakadalekayi; honge, ippe, etc.

Column 17.—*Condiments and spices.*—Pepper, cardamom, chillies, cummin seeds, coriander seeds, ginger, mustards, turmeric, onions, garlic, mentya, etc.

Column 22.—*Others (Fibres).*—Pundi, sanabu, etc.

Column 27.—*Others (Dyes).*—Rangumale, etc.

Column 29.—*Coffee* should be both malnad and maidan. The area covered by both mature and immature plants should be entered.

Column 36.—*Fodder crops.*—Kaki jola, etc.

Column 37.—*Orchards and garden produce.*—Mango, apples, figs, plantains, oranges, pomegranates, etc. The area of cocoanut, areca and betel-leaf gardens should also be included.

Column 38.—*Miscellaneous food crops.*—Vegetable gardens, potatoes, etc.

Column 39.—*Miscellaneous non-food crops.*—Mulberry, etc.

6. *Table A-4.*—This table deals with agricultural stock and should include live-stock in Municipalities. Oxen and buffaloes not old enough for work or to produce young should be treated as "Young stock" in this return.

Until 1898-99, statistics of live-stock were collected every year by the shanbhog and patel of each village by inquiry and inspection, as a part of the year's jama-bandi routine. Government directed, in their Order No. 7601—615, dated 24th April 1899, a quinquennial census to be taken and the repetition of the figures of such census as statistics for the ensuing four years. Consequently the figures contained in the statement for the two years 1904-05 and 1905-06 are those obtained at the Census of September 1904.

7. *Table B.*—This is a statement showing the average for the year of the prices current of certain articles. It is printed in this collection, as Part III.

8. *Table C.*—This table indicates the relation between area, population and land revenue or in other words the mean burden of the State assessment on the land assessed to it and on the community at large. The tenure to which this table (for the Mysore State) relates is entirely raiyatwari.

(*a*) Column 3 (*a*) represents the area of alienated villages, plus the area of unoccupied assessed waste land in Sirkar villages (4 of Table A-2). The area of minor Inams is not however included in this column, as a proportionate deduction cannot be made in the corresponding population.

(*b*) Column 3 (*b*) represents the area withdrawn from cultivation and should therefore exhibit the total of the areas shown in columns 2 and 3 of Table A-2

(*c*) Column 4 (*a*) exhibits the area of occupied lands (Sirkar and minor Inam) in Government villages and should therefore equal the sum total of the figures in column 5 and column 6 of Table A-2 (current fallows and net area cropped during the year).

(*d*) Column 4 (*b*) exhibits the area actually cultivated. The figure under column 6 of Table A-2 will therefore be repeated here.

(*e*) Column 5 should exhibit the total realizable Land Revenue including Miscellaneous Land Revenue of the whole district for the year after excluding arrears for past years. The figure to be entered here will therefore be that which represents the fixed demand under these heads *plus* Miscellaneous Land Revenue and *minus* remissions under defined rules, and *minus* also irrigation cess merged in the assessment as shown in the list appended to Government Proceedings No. R. 212, dated 30th July 1894.

(*f*) Columns 6 and 11.—The population according to the most recent decennial census will be entered in column 6 subject to such alterations as are necessitated by any change in the constitution of the districts and the figures in column 11 are subject to such alteration as may be necessitated by alteration in the area of "fully assessed land" by the resumption of alienated villages or other causes.

(*g*) Column 7 is arrived at by column 5 being divided by column 6.

(*h*) Column 8 does not include Miscellaneous Land Revenue and Land Revenue on alienated villages which are included in column 5.

(*i*) Column 9 is arrived at by column 8 being divided by column 4 (*a*).

Column 10 is arrived at by column 8 being divided by column 4 (*b*).

Column 12 is arrived at by column 8 being divided by column 11.

9. *Table D.*—The form prescribed by the Government of India is intended to show the principal varieties of tenure held direct from Government. For Mysore (where the prevailing tenure is raiyatwari and the accounts are kept villagevar), the first four classes and classes VII and VIII will be left blank, all raiyatwari holdings will be included in class V, the heading thereof being altered from "Peasant proprietors paying separately" to "Small holdings held separate and direct from Government (raiyatwari tenure)" and all Inams (Jahgirs, whole Inam and Kayamgutta villages and minor Inams in Sirkar villages) will be entered in class VI. Lease-holders of gold mines will be shown under class IX "others."

(*a*) (1), Number of estates.—This represents practically the number of separate pattas issued or khates recorded in the Land Revenue Register. Two or more estates belonging to the same proprietor, if they are separately recorded in the Revenue Ledgers and form the subjects of separate pattas, will be separately reckoned for this return.

(*b*) (2), Number of villages.—This shows the total number of villages (primary, of course) populated and unpopulated, *i. e.*, the areas constituted as villages by the Survey and Settlement Department.

(*c*) (3), Number of holders.—One proprietor may be reckoned twice or oftener as the owner of two or more estates separately recorded according to the number of pattas held by him.

(*d*) Item 5½. Gross assessment.—Between items 5 and 6 of the Government of India form, an item numbered 5½ should be opened to show "gross assessment." This in the case of raiyatwari lands will be the survey assessment and water-tax, and in the case of alienated lands it will be combined quit-rent and water-rate (if any) payable to Government : in both cases without deducting remissions and other deductions, if any.

10. (*a*) *Table E.*—This table is intended to show the number of voluntary and compulsory transfers of ownerships of lands and the area so transferred. By "voluntary transfers" are meant transfers made by actual contract or gift. Transfers by inheritance are not to be taken into account, nor non-permanent transfers such as leases, mortgages, etc. Only permanent transfers (for instance by sale or gift) should be included when the parties concerned apply for and obtain transfer of "Revenue Registry." These voluntary transfers will be entered in columns 4 and 5 and columns 8 and 9 (private contract or gift). On the other hand under heading "By order of Court," columns 2 and 3 and columns 6 and 7 are included :—

(1) Changes of registry under decrees of Civil and Revenue Courts whether the decrees were passed on disputes regarding title or by reason of debts incurred by the judgment-debtors, and

(2) All cases in which lands are sold for arrears of revenue due to Government and purchased by private parties.

(*b*) Cases in which lands sold for arrears of revenue due to Government are bought by Government will be excluded from this table.

The particulars contained in columns 2 to 21 should be entered for each district opposite to details under column 1 "Class of tenure," *viz.*, (*a*) Revenue paying and (*b*) wholly or partially revenue free.

The information contained in Table E will be entirely based upon that *furnished for each village* in Village Account Form No. 6 (Statement of Increase and Decrease) and its enclosure.

EXPLANATORY MEMORANDUM ON THE STATISTICS RELATING TO AREA AND YIELD OF PRINCIPAL CROPS.

The Estimates of out-turn of crops comprised in the following pages are based upon the village Account Form No. 3 (Pahani Thaktha).

2. In this account, the area, assessment and other particulars of each field are entered from the permanent village accounts; and for each Survey number, the estimated area under each crop is entered by actual field inspection every year. The inspection is to be made twice in the year to correspond with cultivation and crop time. An abstract is subjoined to the account showing the aggregate estimated area uuder each of the fifteen principal crops enumerated in the prescribed form.

3. In 1897, the opportunity was taken to utilize this account for estimating the year's yield of the harvest under each of five selected crops *viz.*, paddy, ragi, horse-gram, cholam and sugar-cane. It was ordered that this estimate should be made by tabulating the area under each crop in the village, in a form which was prescribed as an "Enclosure to the Pahani Thaktha, Village Account Form No. 3." It was directed that as a rule, that is to say, except when the Deputy Commissioner would otherwise direct under section 10 (a) of the Mysore Famine Code, the return should correspond with the two pahani inspections, *viz.*, once before the jamabandy about the second fort-night of October while the crops are standing, and a second time after the cultivation season is over at the end of January following. Under these orders, the return is, in the first instance, prepared for each village by its shanbhog and submitted to the Taluk Office where after being examined, it is compiled for the entire taluk and trasmitted to the Deputy Commissioner who, in his turn, submits to this office an abstract statement Taluk-var for his District before the end of April every year.

4. The out-turn is estimated for each village taken separately by the shanbhog and Patel who, from their intimate knowledge of the locality, may be relied upon to judge in this matter as well as possible for the purposes of a rough approximate estimate.

5. The out-turn is stated in annas, *viz.*, 20 annas,' '16 annas,' '8 annas' and '4 annas and less' which would respectively represent 'bumper,' 'average,' 'middling,' and 'bad harvests.'

6. The aggregate estimated area under each crop as per Pahani abstract is distributed under these four classes, and arithmetically reduced to the equivalent area under a normal, that is to say, a fair average or 16 anna crop. The standard actual yield of a normal crop per acre (16 annas) in a fairly good season is fixed for the taluk as a whole, after careful local inquiry once for all, and not afterwards altered without the previous sanction of Government. The estimated out-turn for the entire taluk is calculated on this basis, and the results for the years 1904-05 and 1905-06 are exhibited in the following pages.

[For full details of the method, see the following standing orders on the subject:—

(1) Government Proceedings No. 6150—R. 2096, dated 9th January 1897.

(2) Government Proceedings No. 7866—R. F. 130-93, dated 10th March 1897.

(3) Government Proceedings No. 5713—R. F. 130-93, dated 21st February 1899.]
